

NETWORK DESIGN, INTEGRATION AND SUPPORT SERVICES

Accounteks Consulting provides leading-edge technology solutions that empower small to mid-sized organizations with optimal business performance. We specialize in designing and implementing networks aligned with your current business objectives and scalable to fit your needs of tomorrow.

Our Network Design, Integration & Support Services include:

- ▲ Virtual Server, Desktop, Application & Storage Solutions
- ▲ Desktop Alternatives - Thin Client
- ▲ Cloud Computing
- ▲ Email Solutions
- ▲ Apple® Mac Integration & Support
- ▲ Hosting (Web/Server/Email/Applications)
- ▲ Desktop & Server Maintenance
- ▲ Disaster Recovery
- ▲ Software Training
- ▲ Office Moves

Make the most of your resources.

Virtualization improves the overall management of your IT infrastructure, provides scalability that enables your business to easily expand capacity when needed, and simplifies the process of deploying new hardware and software solutions, saving both time and money.

Prevent Downtime.

Proper maintenance of your IT infrastructure will keep your systems up and running smoothly. Some of our maintenance services include auditing your servers and desktops to check hard disk space availability, applying service packs and updates, confirming security, assuring data back up, and more.

Prepare your business for the unexpected.

Prevent data loss by ensuring your applications, data, and hardware are being managed properly. We'll help you develop a business continuity plan to keep your business up and running in the event of a disaster, and can get your business back up and running if you've already experienced an unexpected issue.

Right-Sized Solutions

Our solutions are always "right-sized" to fit the specific needs of our clients' businesses, delivering the performance, reliability and peace-of-mind our customers depend on to manage their businesses.
