

MOBILITY & REMOTE COMMUNICATIONS

Eliminate downtime by giving your employees the ability to safely access your network anytime, from anywhere. Whether you need to create one master network that links to multiple office sites, give remote workers the ability to access your network, or ensure productivity on days when bad weather or other emergencies prevent your office from opening, Accountteks Consulting ensures ongoing productivity by keeping you connected.

Mobility & Remote Communications Options include:

- ▲ **Email Solutions**
- ▲ **Blackberry® Server**
- ▲ **Remote Access/Branch Office**
- ▲ **Virtual Private Networks (VPN)**
- ▲ **Security Gateway Interface**

Enable branch offices and remote workers to stay connected.

Today's workforce requires the flexibility to access different types of applications and desktop functions remotely. A wide variety of technologies such as virtual private networks and security gateway interfaces are available to allow remote users to access authorized company information quickly and securely. Accountteks Consulting can implement the system best suited to your needs, ensuring 24/7 access to your business.

Work from anywhere, using any device, in real time.

Accountteks Consulting can implement a BlackBerry® Server that provides your employees with access to their email, contacts, calendars and schedules, and other applications like customer relationship management and enterprise resource planning, via their BlackBerry® Smartphones. More importantly, we can automate the process of synchronizing data wirelessly, removing the need for each employee to plug their phone to a laptop or desktop PC.

Right-Sized Solutions

Our solutions are always "right-sized" to fit the specific needs of our clients' businesses, delivering the performance, reliability and peace-of-mind our customers depend on to manage their businesses.
